

Hydraulic Rail Profile Grinder 910215

INNOVATIVE DESIGNS FROM RACINE RAILROAD PRODUCTS

Efficient

The Hydraulic Rail Profile Grinder uses a high-efficiency, pressure-loaded hydraulic motor that provides maximum power while reducing heat and minimizing energy waste.

Easy Operation

- Smooth-operating stone height adjustment is well within easy reach of the operator.
- Lifting handles are balanced for ease in transport.
- Stone access panel and shaft lock for easy stone removal.
- Quick latch is easily adjustable for carriage positioning.

Over-Speed Protection, Spark and Trigger Guards

- Over speed valves protect motor and stone from excess RPMs.
- Spark guard for optimum protection.
- Convenient handle with a trigger guard automatically stops tool operation when released.

Specifications

Hydraulic System	Open Center
Frame Type	Tube
Circuit	10 GPM @ 2000 PSI
Hydraulic Relief Pressure	None
Weight	95 lbs
Dimensions	45" L x 16" W x 35" H

Stone Wrench Model 910104

- Makes changing stone grinding wheels easy.
- Sturdy steel construction.
- Used for Cup Grinders, Combination Grinders, and Profile Grinders.
