

Hydraulic SprintSaw

Product # 910203

The Racine SprintSaw will provide gasoline-type performance by cutting 132 lbs of rail in less than 1 ½ min. The saw uses a cog-belt driven design to produce proper 16" abrasive wheel speed to optimize rail cutting. This lessens the chance of wheel "glazing", not available with other hydraulic models.

Key Features:

- A flip-over feature that allows the operator to finish a cut from the other side, reducing cost by extending blade life
- Adjustable 3-position assist handle for operator comfort
- Spring assist rail clamp assembly helps carry the weight of the saw when cutting to lessen back fatigue
- Assist handle can be adjusted for left or right-handed operators
- A cog-belt driven design to produce proper 16" abrasive wheel speed to optimize rail cutting. This lessens the chance of wheel "glazing", not available with other hydraulic models

Options:

- Racine Z Wheel accessory
- Racine Wheel accessory

Specs:

- Circuit: 10 GPM @ 2000 psi (~38 LPM @ 138 bar)

Safety:

- Over-speed valve protects the motor and blade from excessive rpm
- Convenient handle with trigger that automatically stops the tool when released
- Safety trigger lock to avoid unplanned operation
- Wheel guard to deflect sparks away from the operator

Dimensions:

Length: 40 in. (~101 cm)

Width: (without rail clamp) 17 in. (~43 cm)

Height: 17 in. (~43 cm)

Weight: (without rail clamp) 40 lbs (~18.4 kg)
