

Hydraulic Rail Profile Grinder

Product # 910215

The Hydraulic Rail Profile Grinder uses a high-efficiency, pressure-loaded hydraulic motor that provides maximum power to grind down the top and sides of a rail head to restore the rail's original profile and smooth out wear or damage.

Key Features:

- Handle has a trigger guard that automatically stops tool operation when released
- Smooth-operating stone height adjustment is well within easy reach of the operator
- Lifting handles are balanced for ease in transport
- Stone access panel and shaft lock for easy stone removal
- Quick latch is easily adjustable for carriage positioning
- Over-speed valves protect the motor and stone from excess RPMs

Options:

- Stone Wrench Model 910104
 - Makes changing stone grinding wheels easy
 - Sturdy steel construction
 - Used for Cup Grinders, Combination Grinders, and Profile Grinders

Specs:

- Frame Type: Tube
- Hydraulic Rated Flow A-Port: 10 GPM @ 2000 psi (~38 LPM @ 138 bar)

Safety:

- Spark guard for optimum protection

Dimensions:

Length: 45" (~114.3 cm)

Width: 16" (~40.6 cm)

Height: 35" (~89 cm)

Weight: 95 lbs (~43.1 kg)
