

# AM3 Anchor Applicator

The AM3 Anchor Applicator is designed to apply rail anchors on one rail using a single-operator machine. With advanced hydraulic control and ergonomic design, the AM3 delivers smooth operation, reduced manual labor, and dependable performance in demanding rail environments.

## Key Features:

- Hopper can hold up to 3000 anchors
- Bristle/strip door hopper access keeps conditioned air in and heat and dust out
- Separate engine/machine control boxes
- Excellent visibility fore and aft when track traveling

## Specs:

- Seating Capacity: 1 operator, no passengers
- Travel Speed: 24 mph (~39 km/h); chain-driven propulsion system
- Engine: 74 HP Cummings 2.8L Tier IV liquid-cooled engine requiring no DEF or Regen needed
- Fuel Tank Fill Capacity: 54 gallons (~205 litres)
- Hydraulic Reservoir Fill Capacity: 30 gallons (~113 litres)
- 24V DC system with circuit breakers for lights and accessories
- Cast steel wheels for long wear, self-aligning roller bearings, and 3" or 3.5" axles available

## Safety:

- Crash detection for setter arms that stops the cycle if it encounters tie for added protection
- Enclosed cab with HVAC system, in-cab pressurizer for a safer work environment, and acoustical protection
- Side egress optimizes safe operator exit in congested areas
- Safety is enhanced using electric-powered controls that reduce operator fatigue

## Technology:

- Easy touchscreen controls with workhead adjustments from the operator seat, saving time and offering a safer way to make machine adjustments
- Onboard electrical system diagnostics to simplify troubleshooting and lessen downtime
- Remote program updates and remote troubleshooting with built-in telematics (within cell range)
- Smart hydraulic valves with self-diagnostics and maintenance screens increase flexibility, reliability, and reduce parts inventory by using the same control valve for every function
