

OTM Reclaimer

Designed for single-operator use, the OTM Reclaimer uses magnetic conveyors to move material from the track into an onboard hopper at speeds up to 80 feet per minute.

Features two belts on the gauge side and two on the field side, each with independent lift to easily clear joint bars and crossings.

Key Features:

- 71.5 cubic foot capacity hopper can discharge from either side of the machine
- Excellent 360-degree visibility fore and aft when track traveling
- External Conveyor Control with front and side camera views
- Jointbar detector

Specs:

- Seating Capacity: 3 (one operator, two jumpseats)
- Travel Speed: 24 mph (~39 km/h); chain-driven propulsion system
- Fuel Tank Fill Capacity: 35 gallons (~159 litres)
- Hydraulic Reservoir Fill Capacity: 72 gallons (~327 litres) (available options: case drain filter, pressure filter, & return filter)
- 24V DC system with circuit breakers for lights and accessories
- Structural steel frame with derail skids, keyhole tie downs, rubber bumpers
- Cast steel wheels for long wear, self-aligning roller bearings, and axle locks for safe operation

Safety:

- Enclosed cab with HVAC system, in-cab pressurizer for a safer work environment, and acoustical protection
- Dual side egress optimizes safe operator exit in congested areas
- Safety is enhanced using electric-powered controls that reduce operator fatigue

Technology:

- Easy touchscreen controls for conveyor adjustments are made from the operator seat
- Onboard electrical system diagnostics that simplify troubleshooting and lessen downtime
- Remote program updates and remote troubleshooting with built-in telematics available
